A MOBILE AND ITS CREATOR

Final adjustments are made on the exhibit of modern sculpture by Alexander Calder in the New Gallery of the Charles Hayden Memorial Gallery. The revolving shapes have attracted large crowds to the show.

Calder's Mobiles Spin At Exhibit In Library

An exhibition of the work of Alexander Calder will be on display in the New Gallery of the Charles Hayden Memorial Library from December 6 through January 14. The exhibition is open from Monday to Friday, 10:00 a.m., to 5:00 p.m., and is closed Saturdays and Sundays.

The exhibition will be retrospective, including some of Calder's early wire sculpture as well as new mobiles and stabiles made especially for this show.

James Johnson Sweeney, former director of the Department of Painting and Sculpture of New York's Museum of Modern Art, has done the installation of the exhibition.

The most recent one-man exhibitions of the work of Calder were held in the Ministry of Education in Rio de Janeiro in 1948, last fall at the Margaret Brown Gallery in Boston and this summer in Paris.

Vincent Sheean

One Man Exhibition

The exhibition of Calder's sculpture has been made possible by the generosity of the artist; The Addison Gallery of American Art, Andover; The Buchholz Gallery, New York; Wallace K. Harrison, New York; The Museum of Modern Art, New York; Nathaniel Saltonstall, Boston; Edward Stone, New York; James Johnson Sweeney, New York and Mrs. Catherine White, New York.

Lecture Series Presents Vincent Sheean On India

Vincent Sheean will be the next speaker in the subscription series of the Lecture Series Committee on Monday, December 11, at 5:00 p.m. in Room 10-250. He will speak on "India After Gandhi."

The present situation and the future of India and the countries of the Far East will be discussed by Mr. Sheean. The author of a book about Gandhi, *Lead Kindly Light*, Vincent Sheean has spent a large part of his life in India and the Far East.

His first experience in the Far East was in 1927 as a correspondent for the North American Newspaper Alliance. After returning to the Far East periodically for the next 15 years, Mr. Sheean in 1941 wrote a series of articles on the Far East for the *Saturday Evening Post*.

In 1942 he entered the army air force intelligence section. Following the war, Mr. Sheean returned to India where he observed Gandhi's renewed efforts among the Indians. After writing his book on Gandhi's

Social Finishing and Poise "Gibb's" Girls Major Asset

By ED LEONARD

If you're looking for a girl who's paying as much for her education as you are; if you'd like to find out about some women who know how to act at a cocktail party; if you're pretty sharp yourself; try Commonwealth 6-2475, the Katharine Gibbs school.

One of a chain of exclusive secretarial schools scattered throughout the nation, the Boston Gibbs school located at 151 Commonwealth Avenue, about seventy cents worth of cab fare from Walker, is a favorite with girls who have both the money and brains to attend almost any school in the country. Gibbs training makes good and reliable secretaries, and it is partly on this reputation that the school has met with its current success. But a contributing factor to the school's success, and a point of more than casual interest to Beantown Bachelors, is the extra-curricular social finishing which the vast majority of Gibbs girls have acquired.

Prefer Fraternity Parties

With the fewest of exceptions, all Gibbs girls smoke and drink, at least moderately. Preferred dates include fraternity parties and most

of the local night spots. Occasional plays and musical events are received with some interest, but Gibbs girls are principally party girls.

Statistically speaking, some forty percent are from out of state. Many prefer the Boston school to one which is nearer home. Some ninety-five percent smoke, and at least eighty-five percent of the girls drink.

Ed. Note: This is the second in a series of articles attempting to evaluate the various girls' schools on a relative basis. We submit the following cumulative ratings, analogous to the Technology system, for the girls of the Katharine Gibbs school.

Beauty	3.6
Intelligence	3.5
Party Attitude	4.3
General Compatibility	2.8
Overall Blind Date	3.9

There are two courses at the school—a one-year strictly secretarial course, and a two-year general education and secretarial course. In both courses there are twelve-thirty permissions on Friday nights and one o'clock per-

(Continued on Page 4)

Rating Questionnaires To Test Instructors On Teaching Abilities

A revision of the Faculty Rating System has been completed by the Combined Professional Societies and questionnaires will be issued to Institute undergraduates sometime in January.

There have been several major changes made in the last rating questionnaire. Instead of the student merely checking the phrase which applies to a specific instructor, he will be asked to give comprehensive comments.

Letters will be substituted for numerals in rating the instructor in such categories as blackboard lecturing, attitude toward students and ability to put subject across. The student will then be asked to give his reasons for the mark, and suggestions for improvement. If he has given an "H" in a particular category, mentioning an instructor's good points will help the rating.

Written Evaluation

The revision was brought on by instructors' complaints that numerical ratings were meaningless and that comments should be given to indicate the reasons for their ratings. On this questionnaire the student will be asked to write as much as possible.

Rating questionnaires will be circulated sometime in January but instructors will not receive the re-

(Continued on Page 4)

STAFF MEETING

The Tech will hold an all-staff meeting on Saturday, December 9, at their office in Walker Memorial. It is essential that candidates and members of all staffs attend.

Tech Basketball Team Defeats Boston University By 1 Point In Spirited Last Minute Surge

A scrapping, fighting, never-say-die Engineer basketball team toppled a power-packed B.U. quintet, 63-62, in a tension-edged game, held in Walker Memorial last Wednesday night. Never in the lead until the final seconds, the Tech crew pulled the upset by dint of sheer drive and spirit.

Although the game's top scorer was the Terriers' 6'5½" Bob Reisner, the Engineers rushed the B.U. team nearly off their feet in their drive for their season's first victory. Captain Leon Hong stole the ball from the Terriers again and again, while center Hank Hohorst and forward Larry Garthe shone

on rebound work.

The game started with a highly touted B.U. team primed for a victory in their first game of the season, while the Engineers, on the basis of their T.P. showing against Harvard, were viewed with a dubious eye by some.

A streak of hook shots from Reisner put the visitors ahead, but a flurry of stolen balls and intercepted passes by Technology evened the game again in the early moments of the first half. Another spurt by Reisner, and another by Tech balanced each other as control of the ball seesawed back and forth throughout the opening frame. A final flurry of shots from Reisner, who scored 19 points in the first half, again put the Terriers nine points ahead as the half ended 39-30.

Tech Checks Reisner

As the second half opened, the Techmen quickly picked up several baskets, but two beautiful long tosses by O'Leary kept the Terriers ahead, however, the Engineers

(Continued on Page 3)

Foundation Plans Are Discussed By Baker Committee

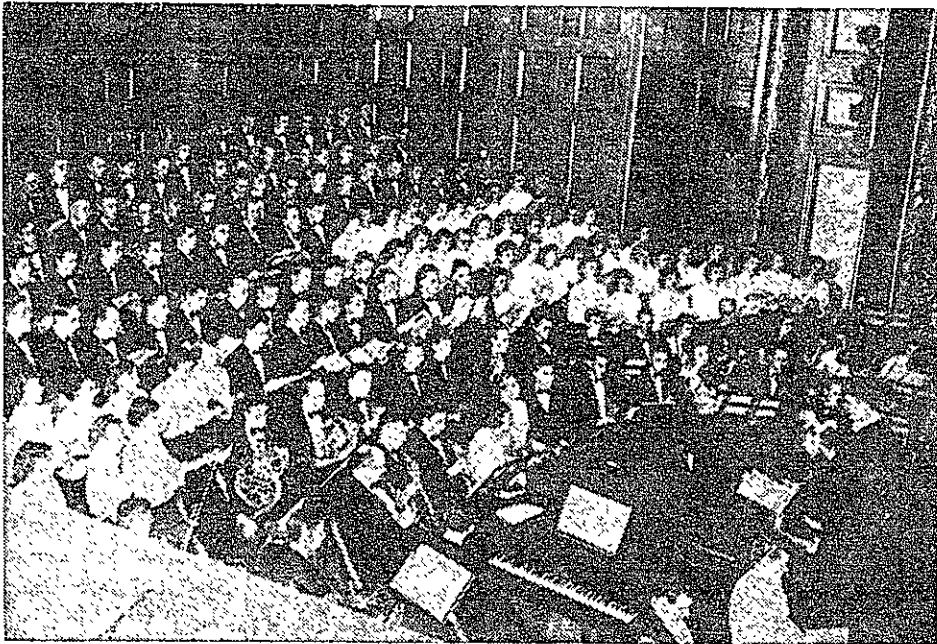

In answer to many questions concerning the goals and future of the Baker Memorial Foundation, the Steering Committee presents here a discussion of the possible courses of action and thinking envisaged by the founding group. The actual decision for next year's project will rest with the student Committee that will be selected in January.

After this Committee is formed in accordance with the procedure outlined in the by-laws of the Foundation, its first task will be to study the reports of previous committees, a wide selection of papers written by Dr. Baker, and also biographies and tributes to him which have been written since his death.

Once the Committee has a clear picture of Dr. Baker and his work,

M.I.T. GLEE CLUB

Haydn's oratorio "The Creation" will be presented in Jordan Hall tonight by the M.I.T. Musical Clubs. In the performance members of the Glee Club and Choral Society, with the Symphony Orchestra, will be conducted by Klaus Liepmann.

European Librarians to Study Documentation Practices Here

A corps of European specialists in the field of documentation, the preservation of history and records, will center a three-day meeting at the Institute starting Tuesday, December 12, and continuing to Thursday, December 14. The group is one "team" of foreign scientific and technical experts studying American practices and techniques under the sponsorship of the Economic Cooperation Administration.

Twenty delegates from eleven nations will convene in the Library Lounge of the Hayden Memorial Library at 2:00 p.m., on Tuesday, Tuesday and Wednesday, they will

examine the latest in documentation equipment in the Boston area; on Thursday the visit will conclude with an all-day symposium in the Library Lounge.

The Thursday morning session will begin at 10:00 a.m., with a study of the microtechniques of documentary reproduction, a field in which the Institute library is particularly well-equipped. The afternoon session starting at 2:00 p.m. will include a discussion of European and American practices in documentation.

Most of the delegates are librarians in their countries.

Dormitory Doings

By ED FACEY

Apologies are in order to Social Chairman Marc L. Aellon '51 and the Baker House for my prediction of 80 couples for the New Dorm dance of December 2. The Baker House had 144 paid admissions and about 40 others came over late from T.P. The Techtonians did an especially fine job and the dance with its semi-Christmas effect was a sparkling success.

The Dormitory Christmas Formal had been slated to go to the Baker House, but the Social Committee now deems the move unfeasible, and rightly so. The New Dorm could not hold the now expected 125 formal couples, the 12-piece orchestra, and the large order of refreshments in its downstairs area. The Baker House is not a night club, at least not yet.

There has been much talk in Intramural circles of breaking the Dormitories down into permanent units for sports. It is glaringly obvious that this move has been brought forth directly from a look at the standings of the clubs recently.

We of the Dormitories have enjoyed the freedom thus far of playing with the men in our Houses with whom we wish to play. Good clean friendship has evolved from our sports and we hesitate to think of the consequences of "floor" ball clubs.

The Intramural Council attributes this move to the recent upsurge of power of Dormitory teams. However, we are not unaware of the selection by many fraternities of incoming high school lettermen. Nor of their consequent close integration and enthusiasm for intramural cups. They have long been at the top with regard to athletics.

Letters to the Editor

Dear Sir:

It was with pleasure that I read in the November 3rd issue of The Tech that the Karoso Club was reorganizing for the coming year.

I would like to wish the club a successful year and continued growth. I am grateful that I could play a part in the importation from Poland of this game which rivals and threatens to surpass chess as a test of mental skill and agility. I sincerely hope that within a few years M.I.T. will be able to produce teams that compare favorably with those of Europe's universities.

Bradford D. Pearson, '50

The fraternities usually have an overwhelming majority in the Council and this year is no exception. It is too bad to have to bring this up just when we started winning.

The Dormitories are solidly against any breakup of the order contemplated by this Council. Dormitory Committee passed the motion that it "refuse to permit the Houses to be divided into permanent units for the purposes of competition in the Intramural athletic program."

The Dormitories hope that the

SPORTS

PRO-HOCKEY
 Sunday night, Dec. 10—Those baffling Bruins square off against the Montreal Canadians at 8:30 p.m.

BASKETBALL

Tuesday night, Dec. 12—The Globe-Trotters are back in town for a one night stand at the Garden.

BAKER MEMORIAL

Certainly there could be no more fitting tribute to the late Dean Baker, who devoted so much of his energy to the welfare of the students of Technology, than the spontaneous student movement to establish the Baker Memorial Foundation. The magnitude of the plan and the enthusiasm with which it has been undertaken serve better than anything else to illustrate the great sense of loss felt by so many of Technology's students.

We must not forget for a moment that this loss is a very real one. Dean Baker's tireless efforts constituted a most vital and positive force exerted unflinchingly for the betterment of the social and educational environment of the students of the Institute. One has only to recount his long list of achievements in this direction to realize the extent to which he accomplished his purpose during the years that he was here. We think that the students here are universally aware that in losing the late Dean we have lost a great teacher and a powerful and generous benefactor.

The Baker Memorial Foundation, as conceived by the originators of the idea, will serve as a continuing proponent of the ideals which Dean Baker brought to the Institute. This is a kind of memorial which is in tune with the very spirit of these ideals, and we can imagine none that would more please the late Dean himself.

Despite all this, there have been criticisms of the idea and of the way in which it is being brought into being. These seem to arise from a misunderstanding of the proposed functions of the Foundation and a mistaken feeling that the movement to establish the memorial has been tainted with commercialism in the present fund drive.

The misunderstanding of the purpose of the foundation is brought out when people express the opinion that the committee should be more specific about what's to be done with the money, when they ask for a "list of projects." The people who ask these questions must feel that the Memorial is to be a kind of special endowment fund established for the purpose of providing funds for beautifying the campus and providing additional recreational and cultural facilities. When viewed in this light, it is possible to make many criticisms of the plan. (i.e.—that the interest from the proposed capital fund will not provide for very many significant projects.) But it must be borne in mind that the greatest service that the Foundation will perform will be that of a group of students acting as a vigorous proponent of Dean Baker's ideals. A great many desirable goals can be achieved merely by the existence on campus of such a group, just as many significant ends were achieved simply because Dean Baker was here to work toward their accomplishment. The funds which the Foundation will have available will in fact serve mainly as an important corollary to these other modes of action at its disposal.

Success in the drive for funds will enhance the value of the Foundation both by extending its powers of accomplishment and by providing concrete evidence of the endorsement of the student body. The objection that the fund drive has bowed to commercialism is ridiculous; on the contrary, the magnitude and the vigor of the campaign reflect a commendable seriousness of purpose on the part of those conducting it. Certainly this is a thing which deserves the complete and wholehearted support of every one of us.

Basketball

(Continued from Page 1)
managed to hold Reisner to only four points for the entire half. Center Hank Hohorst came alive with some fancy shooting, too, as the Tech quintet slowly began pulling up on the Terriers. In the final two minutes, a long shot by Mike Nacey split the net to tie the game at 59-all, but an even longer one by McDonald of the Terriers, coupled with a free shot, edged the visitors ahead. A charity toss by Nacey brought the Technology total to 60, but the time seemed too short for further action, as the Terriers took over the ball.

Hohorst Shot Decides
In the final seconds, however, center Hank Hohorst once again dropped a two-pointer through the nets, and collected a foul try as well. The foul, sunk by Hohorst, put the Engineers ahead to take the final victory, as a B.U. desperation shot went clear over the basket, backboard, and all.
Top scorer for the contest was Reisner, of the Terriers, as he hooked nine baskets through the nets, and dropped in five free shots for a total of 23 points. For the Engineers, big Hank Hohorst tied with Mike Nacey for top honors at 16 points, followed by Herb Glantz and Cap't Leon Hong with ten tallies apiece.
Earlier in the evening the B.U. frosh took the Beaver kits for a ride by a score of 78-51. Top scorer for the game was Tech's Lickley with 17 points. Following for Tech was Jackson with 10. High man for the Terriers Pups was Nesbitt

Ten Teams Unbeaten As Intramural Hoop Season Nears Finish

After completing two-thirds of the season, only ten teams remain undefeated. There are ties for first place in every league except III and IV where Sigma Nu and the Grad. House are the uncontested leaders.

In league I, Baker House handed the Alpha Club its first loss, 24-10 to give Baker House a tie with Phi Kappa Sigma who defeated Delta Upsilon 48-41. Delta Tau Delta lost two games, one to Delta Kappa Epsilon 27-26 and the other to Delta Upsilon 16-8. In league II, Theta Chi and the Chinese Club are tied for first place. Theta Chi overwhelmed the Lenox Club 73-16 for their forty-second consecutive victory, while the Chinese Club defeated Phi Delta Chi 32-15. Phi Mu Delta beat Theta Delta Chi 36-27.

Sigma Nu Wins

In league III Bemis-Hayden lost two games by default, one to Beta Theta Pi and the other to the 5:15 Club. Sigma Nu handed Walker its first defeat 50-25, the New Dorms "A" defeated Sigma Chi 29-16, and Walker overcame the 5:15 Club 32-27.

In league IV, Westgate won two games one from Alpha Tau Omega 43-29 and the other from Monroe-Wood 66-12. Dorclan defeated Monroe-Wood 43-32, and Sigma Alpha Mu edged a close one from Alpha Tau Omega 27-26. In league V there is a three way tie between Pi Lambda Phi, Phi Beta Epsilon,

(Continued on Page 4)

Swimmers Meet Brown

Tech's mermen travel to Providence, Rhode Island, this Saturday to compete with Brown University. They will be trying for their first victory after dropping the opener to Amherst 48-27.

Beaver's Wrestlers To Meet Harvard's Squad Saturday

Tech Hockey Men Lose To Harvard In Boston Garden

Last Tuesday night at the Boston Garden the Beaver hockey team suffered its second loss, when a fast Harvard team outclassed them, winning by a fourteen to two count. The Tech defense did as well as could be expected but was unable to stop the clever stickhandlers from upriver.

The Engineer squad employed a packed defense against the Crimson. This defense keeps the forward line back in the defensive area as a supplement for the regular defense. But due to Tech's lack of practice in this defense, Harvard was able to score many screened shots.

Harvard Scores First

The Johnnies opened the scoring fast as they were able to score twice within the first minute of play. By the end of the first period they had run the count up to five to nothing. In the second frame the Crimson got only two goals while Tech also hit the nets on one occasion. In the final period the Johnnies scored at will as they racked up seven more counters to one for the Engineers.

The Beavers two tallies were scored by Grady, unassisted, and Russell, on a pass from Spaulding. For the second game in a row a Tech man left the game because of an injury. Finnegan, from the first line, was put out of action in the first couple of minutes with a dislocated shoulder.

The following is the Tech lineup: G. Woodward; rd. Anderson; ld. Pinkham; c. Russell; rw. Grady; lw. Finnegan. Spares: Tuggeon, Chisholm, Arey, Learned, Spaulding, Krizak, Kirkpatrick.

Grapplers Seek First Win Against Powerful Crimson; Jayvees Meet BU Today

Tech varsity and Frosh wrestlers will grapple Harvard tomorrow afternoon at the rivals home base. On the basis of the varsity's close loss to Springfield it looks as if the heavier part of the team has come along very well. At the match last Saturday Tom Callahan, wrestling in the 157 pound class and Bart Conant in the 167 pound, both pinned their opponents. Chuck Seymour who wrestled in the 177 pound class lost by a very close decision.

Frosh Look Good

The Freshman team, although untried, looks ready in practice. The outstanding men seem to be Pollinger, who will wrestle in the 130 pound division, Praguski for the 147 pound, Wood for the 157 pounders, and Murkland for the 167 class.

Varsity and Frosh coaches Ray Merritt and Charley Steinmetz have great faith in their team and are hoping for a victorious outcome.

The lineups of both teams are as follows:

Varsity
Joe Myers 123 lbs.; Carl Spero 130 lbs.; Dave Findlay 137 lbs.; Sinclair Buckstad 147 lbs.; Tom Callahan (capt.) 157 lbs.; Bart Conant 167 lbs.; Chuck Seymour 177 lbs.; Bob Robertson (heavy).
Freshmen
Jack Graef 123 lbs.; Paul Pollinger 130 lbs.; Jim Wolfe 137 lbs.; John Praguski 147 lbs.; Frank Wood 157 lbs.; John Murkland 167 lbs.; Frank Koke 177 lbs.; Paul Grey (heavy).

J.V. Wrestle Today

There is also a Junior Varsity match this afternoon at 4 o'clock at Rockwell Cage with Boston University as the eager opponents. The men wrestling in this match are mostly untried and the tentative lineup is:

Junior Varsity
Mintz 123 lbs.; Altken 130 lbs.; Aikatz 137 lbs.; Ammon 147 lbs.; Robertson H. 157 lbs.; Straight 167 lbs.; Brill 177 lbs.; Achan 177 lbs.; Dietz (heavy).

Baker Memorial

(Continued from Page 1)

the next problem will be to evaluate student life at the Institute to answer the question: "Is Dr. Baker's work being continued, and are new opportunities being made available?" On the basis of this evaluation, the Committee will then select the project which will best fulfill the objectives of Dr. Baker and best serve to perpetuate his memory.

Sample Projects

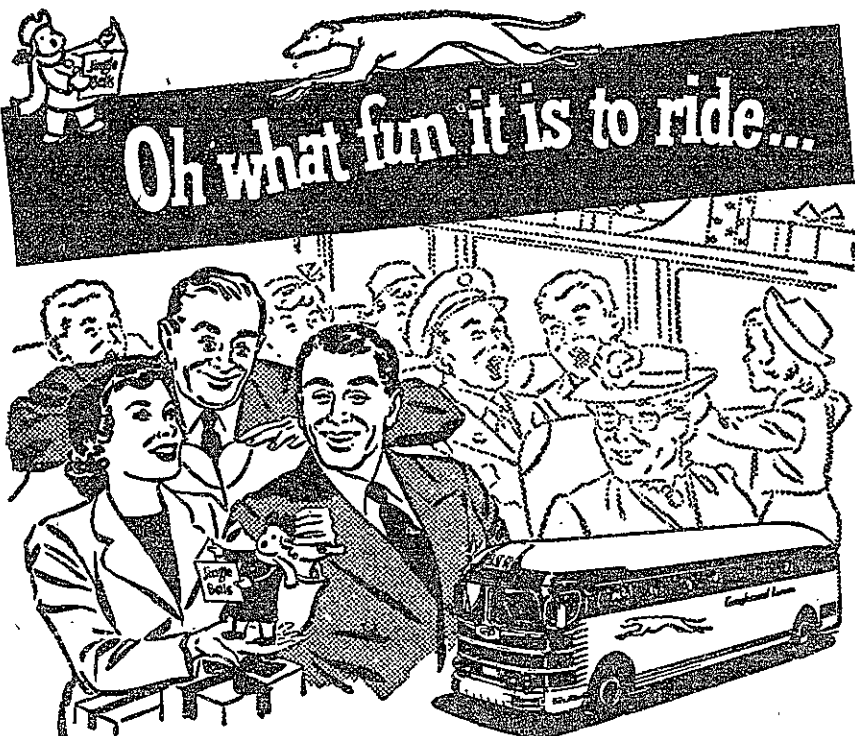

Suppose for a minute that the Committee found that the following three projects needed to be undertaken:

1. A guest lecturer to provide additional cultural opportunities for the student body.
2. A student leadership conference to inform more students of leadership skills.
3. A student union building.

Inasmuch as the Baker Committee is not confined to any field and works in cooperation with the existing agencies here at the Institute, it is probable that the Committee would call for outside help to carry out such projects. A guest lecturer to give the Everett Moore Baker Memorial Lecture could very well be handled by the Lecture Series Committee. The student leadership conference — possibly dedicated to Dr. Baker—could very well be referred to the Institute Committee for action.

The final job of the Committee is its report. This is an important function as it will serve as a guide to future Committees and insure a continuity.

D. L. Rhind Elected President Of College Officers Association

Delbert L. Rhind, Bursar of the Institute, has been elected President of the Eastern Association of College and University Business Officers, which held its thirty-first Annual Meeting in Toronto, Canada, recently. Rhind served as vice president of the association in 1948.

He came to the Institute in 1927 when he was appointed Assistant Bursar, and in 1934 he succeeded Horace S. Ford as Bursar, Mr. Ford having been elected Treasurer of the Corporation.

missions on Saturdays. Limited two o'clock permissions are given to the girls.

Average Age High

The average age is somewhat higher than would be expected for college freshmen and sophomores. Many girls come to the school after one or more years in a finishing school or college. First year students range from eighteen to twenty.

What do the girls think of Technology men? In general a Tech man will have a hard time getting a date at the school because of the sparsity of contacts, and when he does, he'll have to prove himself. While there is no prejudice toward M.I.T. men, the Tech man will find himself being compared with Harvard men. He'll find that his manners and speech will be carefully scrutinized. But in spite of the fact that the girls have an acute sense of social position, they are straightforward, poised and interesting dates.

Guests Invited for Supper

The school holds one acquaintance dance by invitation only, at the beginning of each school year. Many students have male guests for Sunday supper, however, and there is an informal dance in the spring.

Sheean (Continued from Page 1)

India, he went back to the Far East and toured India, Singapore, Indonesia and Tokyo writing articles for Holiday magazine.

Unique Reporting

The author of numerous books, Vincent Sheean writes in a special style of semi-autobiographical political journalism.

Faculty Rating

sults until the second term.

The questionnaires have not been entirely decided upon. The reason for putting off the final decision is the fact that Eta Kappa Nu, honorary Electrical Engineering Fraternity, has recently put out a version of the rating questionnaire. When the flaws have been discovered and corrected, it will be given out to the whole school.

PLACEMENT INFORMATION

COMPANIES DESIRING WRITTEN CORRESPONDENCE

Company	Address	Courses
1. Abraham & Straus Inc.	Brooklyn, N. Y.	XV, XIV

Note: For further information on correspondence contact Student Employment Office, 1-173. Companies coming for interviews are listed each Tuesday in The Tech.

NOTICES

Hillel Foundation

This Sunday morning a brunch will be held in the Burton Room in the East Campus Dormitories. Girls from Wellesley and other nearby colleges have been invited and will be there. It will cost 40 cents for members and 60 cents for non-members.

Professor Carl Freund of Harvard Law School will speak on "The Liberalism of Cardozo, Brandeis, and Frankfurter" on Sunday evening at 8 p.m. He will speak at the Hillel House, 5 Bryant Street. All students are invited to attend.

Veterans Attention

Final date for the requisitioning of books and supplies from the "Coop" under the G.I. Bill for fall term is Wednesday, Dec. 20th. Anticipate your needs for the remainder of the term and obtain requisition blanks in Room 4-132, before December 20th.

and Sigma Alpha Epsilon. Sigma Alpha Epsilon defeated Riverside 60-24, while the Student House lost to Phi Kappa 16-12. In league VI, the Senior House is the only undefeated team but Lambda Chi Alpha, the Pegis Club, and Phi Sigma Kappa are giving them a close race. The Senior House defeated Goodale-Walcott 45-27, Chi Phi conquered the Riverside Staff 27-23 and Lambda Chi Alpha defeated Phi Sigma Kappa 20-10.

Intramural Council will seriously reconsider their proposal.

ASME To Hear Edgerton Speak At Final Meeting

Professor Harold E. Edgerton will speak next Tuesday, December 12, before the final meeting of the American Society of Mechanical Engineers in 10-250 at 5:00 p.m.

Details of the student technical paper competition will also be discussed. The local branch of A.S.M.E. is offering at least \$50 in prizes in addition to thousands of dollars being offered by various companies and the main branch of A.S.M.E.
